

**Connoiseur Electronics Pvt. Ltd.** is one of India's leading computer manufacturing companies and is ISO 9001: 2008 (TUV) certified. We build and customize products also provide premier services to leading global corporations. Connoiseur has partnered with industry leaders including Intel and Microsoft to offer high quality, cost effective end-to-end solutions which provide reliability, stability, scalability, lower cost of ownership, Value for Money to all our clients, and all this with the added assurance of a company which practices ISO 9001: 2008 standards to ensure that their clients get nothing but the best of their products and services.

**Connoiseur** products have always been unique, rugged and are designed save 80% of your electricity consumption and space.

In line with our "Go Green" philosophy and having provided numerous solar powered installations for rural ICT missions, Connoiseur has decided to enter Renewable Energy sector in full scale, both for Solar PV and Thermal, to tap into the abundant solar energy available to us. Having provided solar power to numerous ICT projects in India, Connoiseur is in a unique position to understand and implement custom based solution for your renewable energy needs. Connoiseur management has rich international experience in the field of project management. Connoiseur today has renewable energy staff with a cumulative experience of over 35 years in Solar PV and Thermal Installations with over 150 MW of solar project implementation experience in India and Africa.

Connoiseur has partnered with renowned and proven manufacturers such as Premier Solar Systems (P) Limited (an ISO, TUV Certified Company) for Solar Panels, Aksons (An ISO 9001-2008 Certified Company) for Solar Water Heaters and SolarWaterWorld India, in collaboration with SolarWaterWorld GMBH, Germany, the largest solar powered boat manufacturing company in the world.

Connoiseur has recently added the new Solar Vertical to their fully owned fourteen year old subsidiary company in Mauritius with a full time Vice-President handling the country's solar opportunities.
